PROSPECTUS SUMMARY

Overview of Eyenovia

Eyenovia is a pre-commercial ophthalmic technology company developing the Optejet® delivery system for use both in combination with our own drug-device therapeutic programs as well as out-licensing for additional indications. Eyenovia’s aim is to improve the delivery of topical ophthalmic medication through ergonomic design that facilitates ease-of-use, delivery of more physiologically appropriate medication volume, with the goal to reduce side effects and improve tolerability, and introduce digital health technology to improve therapy compliance and ultimately medical outcomes.

The ergonomic and functional design of the Optejet® allows for horizontal drug delivery and eliminates the need to tilt the head back or the manual dexterity to squeeze a bottle, to administer medications. Drug is delivered in a microscopic array of droplets faster than the blink reflex to help ensure instillation success. The precise delivery of a low-volume columnar spray by the Optejet® device minimizes contamination with a non-protruding nozzle and self-closing shutter. In clinical trials, the Optejet® has demonstrated that its targeted delivery achieves a high rate of successful administration, with 98% of sprays being accurately delivered upon first attempt compared to the established rate reported with traditional eye drops of ~ 50%.

A more physiologically appropriate volume of medication in the range of seven to nine microliters is delivered by the Optejet, approximately one fifth of the 35 to 50 microliter dose typically delivered in a single eye drop. Lower volume of medication exposes the ocular surface to less active ingredient and preservatives, potentially reducing ocular stress and surface damage and improving tolerability. The lower volume also minimizes the potential for drug to enter systemic circulation, with the goal of avoiding some common side effects that are related to overdosing of the eye.

Versions of the Optejet are being developed with on-board digital technology to provide reminders via Bluetooth to smart devices and date and time stamp device use. This information can then be used by practitioners and health care systems to measure treatment compliance and improve medical decision making. In this way, the Optejet could serve as an extension of the physician’s office by providing information that is not currently possible to collect except through the use of diaries.

Eyenovia’s drug-device therapeutic programs include MicroPine, MicroLine and Mydcombi™. MicroPine is Eyenovia’s first-in-class topical therapy for the treatment of progressive myopia, a back-of-the-eye ocular disease associated with pathologic axial elongation and sclero-retinal stretching. In the United States, myopia is estimated to affect approximately 25 million children, with up to five million considered to be at high risk for progressive myopia. In February 2019, the FDA accepted our investigational new drug application (“IND”) to initiate a Phase III registration trial of MicroPine (the “CHAPERONE study”) to reduce the progression of myopia in children. The first patient was enrolled in the CHAPERONE study in June 2019. On October 9, 2020, we entered into a license agreement (the “Bausch License Agreement”) with Bausch + Lomb, pursuant to which Bausch + Lomb may develop and commercialize MicroPine in the United States and Canada. Under the terms of the Bausch License Agreement, we received an upfront payment of \$10.0 million and we may receive up to a total of \$35.0 million in additional payments, based on the achievement of certain regulatory and launch-based milestones. Bausch + Lomb also will pay royalties to Eyenovia on a tiered basis (ranging from mid-single digit to mid-teen percentages) on gross profits from sales of MicroPine in the United States and Canada, subject to certain adjustments. Under the terms of the Bausch License Agreement, Bausch + Lomb assumed sponsorship of the IND as well as ownership and the costs related to the ongoing CHAPERONE study.

Eyenovia has also successfully expanded its manufacturing capabilities through a partnership with Coastline International, Inc. located in Tijuana, Mexico, and the construction of its own fill and finish facility in Redwood City, California. Eyenovia continues to reliably supply this study with clinical product as of the third quarter of 2022.

MicroLine is Eyenovia’s investigational pharmacologic treatment for presbyopia. Presbyopia is a non-preventable, age-related hardening of the lens, which causes the gradual loss of the eye’s ability to focus on near objects and impairs near visual acuity. Allergan recently launched Vuity™, a pilocarpine drug product for the treatment of presbyopia. Eyenovia’s second Phase III study, VISION-2, used the same drug, delivered with the advantages of our Optejet® device. Eyenovia released positive top-line results from VISION-2 in the fourth quarter of 2022.

Mydcombi™ is Eyenovia’s fixed combination formulation of tropicamide-phenylephrine for mydriasis and a novel approach for the over 100 million office-based comprehensive and diabetic eye exams performed every year in the United States. Eyenovia completed two Phase III trials for Mydcombi and announced positive results from these studies, known as MIST-1 and MIST-2, and has submitted an NDA to the FDA seeking approval to market the product in the U.S. In October 2021, Eyenovia received a complete response letter (“CRL”) in response to our NDA, which in part informed us that pre-filled or co-packaged ophthalmic drug dispenser products like Mydcombi have been reclassified as drug-device combination products. This reclassification was based upon the U.S. Court of Appeals for the D.C. Circuit’s decision in Genus Medical Technologies v. FDA, not involving Eyenovia, which ordered that products meeting the statutory definition of a device but were previously classified by the FDA as drugs must be regulated as devices. Before this ruling, the FDA regulated pre-filled or co-packaged ophthalmic dispensers as part of the approved ophthalmic drug distributed and sold with the dispenser. After the ruling, however, the dispenser must be considered as a distinct device constituent part of a drug-device combination product. Eyenovia resubmitted the NDA on November 8, 2022, and announced on December 13, 2022 that the FDA has accepted the resubmission. The FDA has assigned the resubmitted NDA a standard review with a Prescription Drug User Fee Act (PDUFA) target action date of May 8, 2023.

On August 10, 2020, Eyenovia entered into a license agreement (the “Arctic Vision License Agreement”) with Arctic Vision (Hong Kong) Limited (“Arctic Vision”), which was amended on September 14, 2021, pursuant to which Arctic Vision may develop and commercialize MicroPine, MicroLine and Mydcombi in Greater China (mainland China, Hong Kong, Macau and Taiwan) and South Korea. Under the terms of the Arctic Vision License Agreement, as amended, Eyenovia received an upfront payment of \$4.25 million before any payments to Senju Pharmaceutical Co., Ltd. (“Senju”). In addition, Eyenovia may receive up to a total of \$43.75 million in additional payments, based on various development and regulatory milestones, including the initiation of clinical research and approvals in Greater China and South Korea, and development costs. Arctic Vision also will purchase its supply of MicroPine, MicroLine and Mydcombi from Eyenovia or, for such products not supplied by Eyenovia, pay a mid-single digit percentage royalty on net sales of such products, subject to certain adjustments. Eyenovia will pay between 30 and 40 percent of such payments, royalties, or net proceeds of such supply to Senju pursuant to an exclusive license agreement with Senju dated March 8, 2015, as amended.

Eyenovia is in active discussions with manufacturers of existing and late-stage ophthalmic medications to explore whether development with the Optejet technology can solve unmet medical and business needs. Some of those business needs could include extension of exclusivity under the Optejet patents, improvement in a drug’s tolerability profile, or potential improvement in treatment compliance.

Eyenovia’s principal executive offices are located at 295 Madison Avenue, Suite 2400, New York, New York 10017 and our telephone number is (833) 393-6684. Eyenovia’s website address is <http://www.eyenovia.com>. The information on Eyenovia’s website is not intended to be a part of this prospectus, and you should not rely on any of the information provided there in making your decision to invest in our securities. See the section entitled "Plan of Distribution" beginning on page 10 of this prospectus for a complete description of the manner in which the shares registered hereby may be distributed.

RISK FACTORS

An investment in our securities involves a high degree of risk. Before making an investment decision you should carefully read and consider the risks described below, together with all of the other information included or incorporated by reference in this prospectus, including, without limitation, the risk factors in the section entitled “Risk Factors” in our most recent Annual Report on Form 10-K, which is on file with the Securities and Exchange Commission (the “SEC”), and subsequent Quarterly Reports on Form 10-Q. If any of the risks listed in our most recent Annual Report on Form 10-K, our subsequent Quarterly Reports on Form 10-Q or any of the following risks actually occur, our business, financial condition, and/or results of operations could suffer. In that case, the market price of our Common Stock offered by this prospectus could decline, and you may lose all or part of your investment. You should read the section entitled “Special Note Regarding Forward-Looking Statements” above for a discussion of what types of statements are forward-looking statements, as well as the significance of such statements in the context of this prospectus. Additional risks and uncertainties that we do not presently know or that we currently deem immaterial may also have a material adverse effect on our business.

The terms of the Loan and Security Agreement with the Agent and the Lenders require us to meet certain operating covenants and place restrictions on our operating and financial flexibility. If we raise additional capital through debt financing, the terms of any new debt could further restrict our ability to operate our business.

On November 22, 2022, we entered into the Loan and Security Agreement with the Agent and the Lenders that is secured by a lien on all of our assets. The Loan and Security Agreement contains customary affirmative and negative covenants and events of default. Affirmative covenants include, among others, covenants requiring us to protect and maintain our intellectual property and comply with all applicable laws, deliver certain financial reports and maintain insurance coverage. Negative covenants include, among others, covenants restricting us from transferring any part of our business or intellectual property, incurring additional indebtedness, engaging in mergers or acquisitions, repurchasing shares, paying dividends or making other distributions, making investments, and creating other liens on our assets, including our intellectual property, in each case subject to customary exceptions. If we raise any additional debt financing, the terms of such additional debt could further restrict our operating and financial flexibility. These restrictions may include, among other things, limitations on the incurrence of additional debt and specific restrictions on the use of our assets, as well as prohibitions on our ability to create liens, pay dividends, redeem capital stock or make investments. If we default under the terms of the Loan and Security Agreement or any future debt facility, the lender may accelerate all of our repayment obligations and take control of our pledged assets, potentially requiring us to renegotiate our agreement on terms less favorable to us or to immediately cease operations. Further, if we are liquidated, the lender’s right to repayment would be senior to the rights of the holders of our common stock. The lender could declare an event of default upon the occurrence of any event that could reasonably be expected to result in what it interprets as a material adverse effect as defined under the Loan and Security Agreement. Any declaration by the lender of an event of default could significantly harm our business and prospects and could cause the price of our common stock to decline.

DESCRIPTION OF THE TRANSACTION

Loan and Security Agreement

On November 22, 2022, the Company as borrower, entered into the Loan and Security Agreement with the Agent and the selling stockholders.

Amount. The Loan and Security Agreement provides for term loans in an aggregate principal amount of up to \$15.0 million to be delivered in multiple tranches (the “Term Loans”). The tranches consist of (i) a term loan advance to the Company in an aggregate principal amount of \$10.0 million (“Tranche 1”), on November 22, 2022 (the “Closing Date”) and (ii) subject to the achievement of certain performance milestones set forth in the Loan and Security Agreement, a right of the Company to request that the selling stockholders make additional term loan advances to the Company in an aggregate principal amount of up to \$5.0 million (“Tranche 2”) with an expiration date of July 31, 2023. The Company intends to use the proceeds of the Term Loans for working capital and general corporate purposes.

Right to Invest. The selling stockholders have the right, at any time prior to the date that is 18 months following the Closing Date (the “End Date”), to invest up to \$1.0 million in the aggregate in the Company’s equity securities on the same terms, conditions, and pricing offered by the Company to other investors in connection with certain offerings of the Company’s equity securities to third party investors for capital raising purposes occurring after the Closing and prior to the End Date.

Conversion Right. Additionally, the selling stockholders have the right to convert, at any time prior to the End Date, an aggregate amount of up to \$5.0 million of the outstanding principal amount into shares of Common Stock at a conversion price equal to 120% of the closing price of the Common Stock on the Closing Date.

Maturity. The Term Loans mature on November 1, 2025 (the “Maturity Date”).

Interest Rate and Amortization. The principal balance of the Term Loans bears interest at a variable rate per annum equal to the greater of (a) the sum of 4.45% and the prime rate as reported in The Wall Street Journal and (b) 7.00%. Borrowings under the Loan and Security Agreement are repayable in monthly interest-only payments through the twelfth month anniversary of the Closing Date (which may be extended for an additional six months if the Company has requested and the selling stockholders have funded the full amount of Tranche 2). After the interest-only payment period, borrowings under the Loan and Security Agreement are repayable in equal monthly payments of principal and accrued interest until the Maturity Date.

Final Payment. The Company will pay 4.25% of the advanced amount, due upon the earlier of the Maturity Date or termination of the Term Loans (the “Final Payment”).

Prepayment Fee. The Company may, at its option at any time, prepay the Term Loans in their entirety by paying the then outstanding principal balance and all accrued and unpaid interest on the Term Loans, subject to a prepayment premium equal to (i) 3.0% of the principal amount outstanding if the prepayment occurs during the first anniversary following the Closing Date, (ii) 2.0% of the principal amount outstanding if the prepayment occurs after the first anniversary following the Closing Date, but on or prior to the second anniversary following the Closing Date, and (iii) 1.0% of the principal amount outstanding at any time thereafter but prior to the third anniversary following the Closing Date.

Security. The Loan and Security Agreement is collateralized by substantially all of the Company’s assets, in which the Agent is granted continuing security interests.

Covenants; Representations and Warranties; Other Provisions. The Loan and Security Agreement contains customary representations, warranties and covenants, including covenants by the Company limiting additional indebtedness, liens (including a negative pledge on intellectual property and other assets), guaranties, mergers and consolidations, substantial asset sales, investments and loans, certain corporate changes, transactions with affiliates and fundamental changes.

Default Provisions. The Loan and Security Agreement provides for events of default customary for term loans of this type, including but not limited to non-payment, breaches or defaults in the performance of covenants, insolvency, bankruptcy and the occurrence of a material adverse effect on the Company. After the occurrence of an event of default, the Agent may (i) accelerate payment of all obligations, impose an increased rate of interest, and terminate the selling stockholders’ commitments under the Loan and Security Agreement and (ii) exercise any other right or remedy provided by contract or applicable law.

Private Placement Shares; Subscription Agreement

The Private Placement Shares were issued in connection with the entry into the Loan and Security Agreement, pursuant to which the Company entered into a Subscription Agreement by and among the Company and the selling stockholders, pursuant to which the Company issued (i) 219,123 shares of Common Stock to Avenue 1 and (ii) 328,684 shares of Common Stock to Avenue 2, with an issue date as of the Closing Date. The issuance of the shares of Common Stock was made in reliance on the exemption from registration contained in Section 4(a)(2) of the Securities Act, and Rule 506 of Regulation D thereunder, because the offer and sale of such securities does not involve a “public offering” as defined in Section 4(a)(2) of the Securities Act, and other applicable requirements are met.

As of December 12, 2022, we had 36,668,980 shares of common stock outstanding (which number includes the Private Placement Shares held by the selling stockholders, but does not include the shares issuable upon conversion of \$5,000,000 of the outstanding principal amount under the note or notes issued in accordance with the terms of the Loan and Security Agreement) and approximately 37 stockholders of record.

We are registering the shares of Common Stock in order to permit the selling stockholders to offer the shares for resale from time to time. Except for the Loan and Security Agreement and the Private Placement Shares and as described below, the selling stockholders have not had any material relationship with us within the past three years.

The table below lists the selling stockholders and other information regarding the beneficial ownership of shares of Common Stock by each of the selling stockholders. The second column lists the number of shares of Common Stock beneficially owned by each selling shareholder as of December 12, 2022, assuming the conversion of \$5,000,000 of the outstanding principal amount under the note or notes issued in accordance with the terms of the Loan and Security Agreement as of the trading day immediately preceding the date the registration statement is initially filed with the SEC, and assuming Avenue 1 and Avenue 2 convert such amounts on a pro rata basis based on the principal amounts on their respective notes. The third column lists the shares of Common Stock being offered by this prospectus by the selling stockholders. The fourth column lists the shares of Common Stock held by each selling shareholder after completion of this offering, assuming the conversion of \$5,000,000 of the outstanding principal amount under the note or notes issued in accordance with the terms of the Loan and Security Agreement. The fifth column lists the percentage ownership held by each selling shareholder after completion of this offering to the extent such percentage exceed 1% of the total number of shares of Common Stock outstanding at that time. The information presented regarding the selling stockholders is based, in part, on information the selling stockholders provided to us in writing specifically for use in this prospectus. The selling stockholders may sell all, some or none of their shares in this offering. See “Plan of Distribution.”

In addition to the assumptions described above, beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting or investment power over securities. To our knowledge, unless otherwise indicated, all persons named in the table below have sole voting and investment power with respect to their shares of Common Stock. Percentage of beneficial ownership is based on 36,668,980 shares of our Common Stock outstanding as of December 12, 2022 (which number includes the Private Placement Shares).

PLAN OF DISTRIBUTION

We are registering the shares of Common Stock issuable upon conversion of \$5,000,000 of the outstanding principal amount under the note or notes issued in accordance with the terms of the Loan and Security Agreement and the Private Placement Shares to permit the resale of these shares of Common Stock by the selling stockholders from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling stockholders of the shares of Common Stock.

The selling stockholders, which, as used herein, includes donees, pledgees, transferees or other successors in interest selling shares of Common Stock or interests in shares of Common Stock received after the date of this prospectus from a selling shareholder as a gift, pledge, partnership distribution or other transfer, may, from time to time, sell, transfer or otherwise dispose of any or all of their shares of Common Stock or interests in shares of Common Stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale, or at negotiated prices.

The selling stockholders may use any one or more of the following methods when disposing of shares or interests therein:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales effected after the date the registration statement of which this prospectus is a part is declared effective by the SEC;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- one or more underwritten offerings on a firm commitment or best effort basis;
- a combination of any such methods of sale; and
- any other method permitted by applicable law.

The selling stockholders may, from time to time, pledge or grant a security interest in some or all of the shares of the Common Stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of Common Stock, from time to time, under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer the shares of Common Stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In connection with the sale of Common Stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the Common Stock in the course of hedging the positions they assume. The selling stockholders may also sell shares of Common Stock short and deliver these securities to close out their short positions, or loan or pledge the Common Stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The aggregate proceeds to the selling stockholders from the sale of the Common Stock offered by them will be the purchase price of the Common Stock less discounts or commissions, if any. Each of the selling stockholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of Common Stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

The selling stockholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act, if available, or pursuant to other available exemptions from the registration requirements under the Securities Act, rather than this prospectus, provided that they meet the criteria and conform to the requirements of that rule. Registration of the shares of Common Stock covered by this prospectus does not mean that any shares of the Common Stock will be offered or sold.

The selling stockholders may engage in at-the-market offerings and offer the Common Stock into an existing trading market in accordance with Rule 415(a)(4) under the Securities Act on the terms described in the prospectus supplement relating thereto. Underwriters, dealers and agents who participate in any at-the-market-offerings will be described in the prospectus supplement relating thereto.

The selling stockholders and any underwriters, broker-dealers or agents that participate in the sale of the Common Stock or interests therein may be “underwriters” within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. Selling stockholders who are “underwriters” within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

To the extent required, the shares of our Common Stock to be sold, the names of the selling stockholders, the respective purchase prices and public offering prices, the names of any agents, dealer or underwriter, and any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

In order to comply with the securities laws of some states, if applicable, the Common Stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the Common Stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

If at the time of any offering made under this prospectus, a member of FINRA participating in the offering has a “conflict of interest” as defined in FINRA Rule 5121 (“Rule 5121”), that offering will be conducted in accordance with the relevant provisions of Rule 5121.

We have advised the selling stockholders that the anti-manipulation rules of Regulation M promulgated under the Securities Exchange Act of 1934, as amended, may apply to sales of shares in the market and to the activities of the selling stockholders and their affiliates. In addition, to the extent applicable we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.

We will pay all expenses of the registration of the shares of Common Stock, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or “blue sky” laws; provided, however, that a selling shareholder will pay all underwriting discounts and selling commissions, if any.
